

**BLUE MOUNTAIN UNION SCHOOL  
Food Service Committee  
Central Office  
November 4, 2015**

Present: Angeline Alley, Nicole Little, Sara Dennis, Julie Oliver  
Administration: Dena Baker, Lori Blood

Meeting called to order at 6:30pm

Discussed financials for the food service, reimbursement for free/reduced program

Discussed equipment needs, Dena would like the Nutritional Analysis software to help her determine the nutritional value of the food that she is serving; this data is required by the State.

Equipment needs a convection oven with an approx. cost of \$5,000 and a warming rack with an approx. cost of \$2,500.

The freezer was on the blink at the last meeting, this has been fixed and the cost for this was \$3,700, Angeline advised to call the insurance company as this may be covered or determined that it's normal wear and tear.

Discussed the healthy snack for middle school, it seems this had slipped through the cracks. Lori/Dena will look into this with the fresh fruit and vegetable grant.

Discussed the after school snack that was provided previously by YASTS group and asked if they would be interested in that again, Emilie will check on this. It's helpful for those children that have early lunch and then have to stay after school for extra-curricular activities.

Motion by Angeline to approve the minutes of the June 3<sup>rd</sup> meeting, seconded by Nicole, approved unanimously.

Meeting adjourned at 6:55pm

Respectfully submitted: Angeline Alley
